

October 2021 – Cyber Tip of The Week

Passwords/Two-Factor Authentication/Security Questions

Create a long, unique passphrase that is a least 12 characters long and use a different passphrase for every online account.

Use two-factor authentication whenever it is offered. Two-factor authentication is a password and a PIN code which is sent to your phone to log into your account.

When answering security questions, do not answer them honestly, because if you are active on social media, it might be easy for a hacker to find out your first pet's name, high school mascot, where you were born, etc.

Reminder: During the month of October bring your shredding to us. Simply give us a call at 331-204-6230 and let us know you are on your way.

Next week's topic: Monitoring Bank and Credit Card Statements

Lantz Financial, LLC. 1733 Park Street, Unit 350 | Naperville, IL. 60563
